CLIFF RT

**Always
growing.**

**Never
grown up.**

Superb outlooks.

It's not just its roof structure that makes the CLIFF RT stand out – it also has an excellent range of features.

All-Round View

The vehicle's viewing areas can be opened with a zip. All of the openings are protected with fly screens.

Opening

Electric locking and unlocking, manual opening and comfort provided by strong gas pressure absorbers.

Roof Hatch

Enjoy panoramic views through the window in the sleeping roof. It also serves as an additional source of light in the lounge. Equipped with fly screen and blind.

CLIFF RT 600

Features

Roof Tent

Telescopic Ladder

The climbing aid can also be used outside of the vehicle.

Smart Reading Light

Provides comfortable lighting and can also be adjusted variably.

Space and Comfort

High-quality cold-foam mattresses

Safety First

Fall protection for children.

Power Connections.

General note on permitted persons: With the installation of factory chassis options, optional equipment and packages, the permitted number of passengers can be reduced or a load uprating may be needed (see optional extras).
- 2)

The “mass in running order” (MRO) is defined by VO (EU) 1230 / 2012. It refers to the basic version including basic equipment (75 kg for driver, filled fuel tank, filled water tank in driving position, gas filled in an aluminum bottle (15 kg) and electrical connection cable (4 kg)).
- 3)

With Maxi-Chassis – 3,000 / 750 kg.
- 4)

Capacity of fresh water tank within the Regulation VO (EU) 1230/2012, taking into account the limitation valve on the fresh water tank (20 litres) is open. The technically permissible total mass and the permissible axle loads must not to be exceeded.
- 5)

The water ingress warranty conditions of Sunlight GmbH apply.
- 6)

In combination with Maxi Chassis the bumper cannot be painted.
- 7)

Only in conjunction with 16" alloy wheels.
- 8)

General Information

The 'mass in running order' is determined in accordance with Regulation (EU) No 1230/2012. It refers to the basic version together with necessary operating consumables and operator (75 kg for the driver, a full tank of fuel, a filled water tank with 20 liters in normal ride attitude, a completely filled aluminum gas bottle and an electric connection cable). The mass in running order, the potential payload and the number of passengers may vary depending on the vehicle's motorization and equipment variant as well as the addition of any special equipment. Deviations within the scope of factory tolerances (+/- 5%) are possible and permissible. If you purchase your vehicle with additional equipment and/or travel with several persons on board, you should check whether an increase to the load on the vehicle is feasible. The information regarding the vehicles' delivery, appearance, performance, di-

mensions and weight correspond to the knowledge available at time of publication and the European homologation regulations. These may change up until the point in time at which the vehicle is purchased or delivered. Price list for Sunlight Motorhomes version 07/2021, valid from 08.08.2021.
