Dethleffs Lifetime Construction

When it comes to design and technical refinements, the Dethleffs design engineers lead the field. It is no coincidence that we were one of the first manufacturers to give a 6-year water ingress guarantee on the quality of its body construction.

- An extra thick layer of high density, hydrophobic, i.e. water repellent XPS foam ensures excellent insulation properties.
- No material is better suited for impact sound insulation than plywood. And even while driving, a lower noise level can be achieved. Also, the possibility of installing underfloor heating is ensured.

Winter Comfort Pack

For your convenience we have added the Dethleffs Winter Comfort Pack at no extra cost.

- ✓ XPS insulation
- ✓ Insulated under-floor pipes
- ✓ Waste water tank and pipes electrically heated insulated waste water tank
- ✓ Switch for water pump
- ✓ Gas hot-air heating 6kW with 1.8kW electric heating element and hot-water boiler digital control panel

*= Payload already includes essential habitation equipment as stated below in the Mass in Running Order.

The "Mass in Running Order" according to the European Regulations VO (EU) 1230 / 2012 includes the empty vehicle weight, the driver's weight calculated at 85kg, a 90 % fuel capacity, filled water tank capacity (partly reduced capacity, see technical data), 1 x 11kg gas bottle (100 % filled) and a cable reel.

Exclusive to Lowdhams

Dethleffs and Lowdhams are a winning combination that started over 22 years ago and continues to this day. Lowdhams are proud to say that we are the only dealer in the United Kingdom to have an extra special edition Dethleffs, the Eurostyle.

Built exclusively for Lowdhams and the UK, Dethleffs have created a tailor-made specification with a choice of two great floor plans. When you add the exceptionally priced **XTRA** Special Edition k with Dethleffs Lifetime body construction you get a truly irresistible motorhome range in one package.

Comfortable and practical: the queen size bed is accessible from three sides

The 2-burner cooker has a practical, foldable cover and an electric ignition

Layouts

T7052 EBL
Spacious twin single beds with the flexibility to make a huge double make up the rear giving great storage underneath. A full en-suite bathroom with separate walk-in shower and the flexible SMART lounge for total comfort; this is an ideal layout for those wanting the perfect night sleep.

T7052 DBL
A huge rear garage below a fixed island bed, a full en-suite bathroom with separate walk-in shower and the flexible SMART lounge for total comfort; this is perhaps the ultimate layout for those not wanting to compromise.
