2. The Mass in Running Order is the mass of the unladen vehicle including a 75kg allowance for the driver plus engine coolants and 90% of the fuel tank and 1 x 6kg Calor Lite LPG cylinder.

3. The MRO is calculated with the fresh water tank and water heater empty. If you travel with water in the fresh water tank or water heater then the payload will reduce accordingly.
4. Please take care to ensure that you have allowed for the masses of all items you intend to carry in the vehicle, e.g. passengers, optional equipment, essential habitation equipment and

personal effects, such as clothing, food, pets, bicycles, sailboards, sports equipment etc.

5. Warning - under no circumstances should the maximum technical permissible laden mass of the vehicle be exceeded.

Wherever the road takes you, stay connected.

We're excited to welcome you to a **community** built on the values of comfort and convenience. Just like any family, we want to ensure that you are always **connected** and secure, especially when it comes to your adventures in your **Swift Campervan**.

Ford Assistance Plan

A Ford Assistance Plan makes it easy to get back on the road. If you run into trouble, our roadside assistance team will be given your precise location, and information on your vehicle, so they know the issue before arrival*

Remote Start

Cold morning? Automatic vehicles can be started remotely so that they're warmed up, de-iced and ready to go when you are.

Health Status + Alerts

Your vehicle's health is important. Discovering potential issues early can make a huge difference. See your vehicle's health status in detail, and get alerts when something needs your attention.
