#MyChausson

CHAUSSON

45 YEARS OF AN ICONIC MOTORHOME BRAND

Combining an innovative legacy with attractive designs and French savoir-faire.

In 1980, CHAUSSON revealed its first fitted van, the Odyssée 4000, at the Paris Motor Show. Its success led to the rapid rollout of new models, including the brand's first motorhome: the Acapulco overcab motorhome.

Over the years, CHAUSSON's innovations have won over travellers of all stripes, from families to intrepid explorers in search of new horizons.

For CHAUSSON, today is more than just a birthday. It represents its continuing legacy of French excellence. Our commitment can be summed up in two words: "Endless innovation!" Because innovation has always been central to what we do. Since it was founded, CHAUSSON has ceaselessly pushed the boundaries of engineering to create convenient solutions for unforgettable journeys. From optimising indoor areas or cutting-edge technology; when it comes to providing a comfortable, convenient experience, nothing has been left to chance. All this innovation would be for nothing without the watchful eye and outstanding expertise of our employees, who bring our vehicles to life.

We also cherish the close relationship we retain with our customers – your satisfaction is our priority. CHAUSSON doesn't just sell vehicles; it forges relationships and creates passionate communities – like #MyChausson, for example – who share the same love for travel and living free.

So, let's blow out the candles together! It's thanks to these values, this expertise and the interaction we share that CHAUSSON stands out from the crowd as a European market leader.

So, are you ready to innovate with us at CHAUSSON?!

#MyChausson

WHY CHOOSE **CHAUSSON** 3 GOOD REASONS

1

FOR OUR UNIQUE FRENCH SAVOIR-FAIRE

THE PLANT

MADE IN FRANCE. Surrounded by the vineyards of the Vallée du Rhône, the main manufacturing site at Tournon-sur-Rhône (Ardèche) is one of the largest in Europe, covering a 200,000 m² area, equal to 33 football fields.

1 000

EMPLOYEES

Several different teams of professionals are needed to manufacture our motorhomes: carpenters, electricians, decorators, engineers, etc.

8 500

MOTORHOMES AND VANS

The number of vehicles sold by Trigano VDL during a single season.

THE TRIGANO CAMPUS

TRAINING

This is the place where our dealers are trained. In addition, classes were recently organised at the factory for new employees.

2

FOR OUR ESSENTIAL FEATURES

INCREASED AUTONOMY

With the option to add solar panels and a second battery (as an optional extra), as well as a water tank capacity of +/- 100L*.

REDUCING WEIGHT, SAVING TIME AND INCREASING COMFORT

Using fuel heaters, which can be used on the road.

TECHNICAL AREA

With an all-in-one Technibox.

OPTIMISED WATER FLOW

Thanks to a shower tray with double drain.

EASY STORAGE WHILE SAVING SPACE

Garage holds with heating and lighting, equipped with electrical sockets and 2 access doors

* The clean water tank capacity approved for road use is 20L.

FOR OUR ALL-SEASON VEHICLES

IRP STRUCTURE

BETTER INSULATION

thanks to its renowned XPS STYROFOAM insulation.
Remember: if it isn't blue, it isn't STYROFOAM, so don't forget to check!

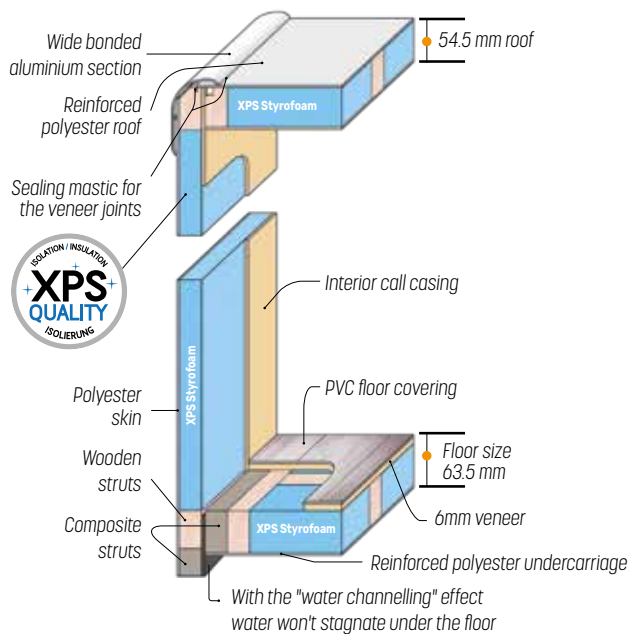

WATERPROOFING

INSULATION

STURDINESS

BETTER RESISTANCE

thanks to the thickness of the roof and floor:
The floor 63.5mm and roof 54.5mm (low profile) both go above and beyond sector standards, feel free to compare them!
A composite/wood combination (overcabs & low-profiles) strengthen our walls, floors and roofs, by taking advantage of the durability offered by composite and the exceptional endurance of solid wood. There's nothing else like it on the market!

BETTER PROTECTION

thanks to polyester in the walls, strengthening the roof and under the floor. This can be found in every CHAUSSON vehicle, even the most basic models!
Whatever the finish, the structure of our living areas will always offer the same high quality standards.

3

GRADE 3

Market-leading insulation, certified by a standard. It's one thing to say that we offer the best; it's another to prove it objectively. The EN1646-1 standard is unquestionable: To be awarded its highest level (Grade 3), it needs to be proven that, at an outdoor temperature of -15°C, the temperature inside the vehicle is able to reach +20°C in under 4 hours. Cold chamber testing has been carried out in Germany (TRUMA) and France (EBERSPÄCHER KALORI). Our tests have proved it: both our low profiles and our overcabs* are build to withstand harsh winters and temper summer heatwaves.

* Overcabs with 5500 W heating.

7-YEAR WATER INGRESS WARRANTY

Subject to an annual inspection by an approved member of our network.

STRIKING INNOVATIONS

SMART LOUNGE

This clever design offers a beautiful lounge that brings together comfort and function, both on the road and during stopovers.

Each of the two benches can quickly be transformed into comfortable (ISOFIX-certified) seats for road travel.

The ISOFIX system makes it easier to install the car seat and adds a third anchor point to keep your children safe.

630 / 640 / 650 / 720 / 777 / 788

SDR (SMART DRESSING ROOM)

The Smart Dressing Room system lets you raise or lower the wardrobe to adjust the size of the garage hold area according to your needs. In the lowered position, your wardrobe becomes a whole other room (Model X650).

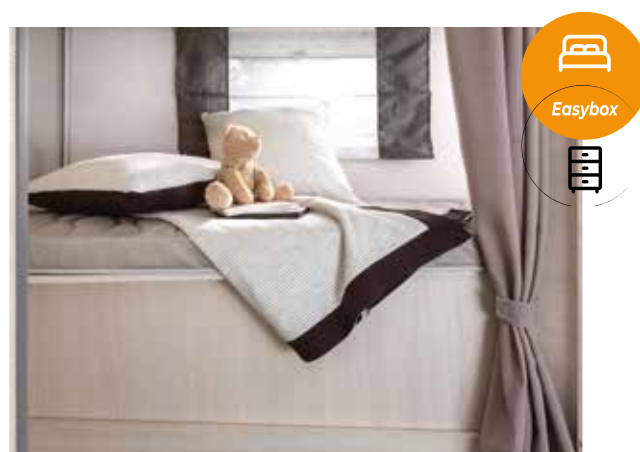

X650

EASYBOX

This modular storage unit proves that storage is no problem, even in a compact motorhome:

- **on the outside:** it makes it possible to adjust the garage higher to store a scooter or bikes.
- **on the inside:** there are many easy-to-reach storage areas (Model 720).

720

EASYBED

The EasyBed system lets you raise or lower the bed to adjust the size of the garage hold area according to your needs.

SLIDE & SLEEP

This innovation is included in model 724, and means that the rear section of the vehicle is modular:

At night-time: a 1-person bed area can be converted into a 2-person bed by pulling out the draw. The mattress is also modular, resulting in either a King Size bed or two separate beds.

During the daytime: the draw of the second bed can be closed to create a desk and storage unit with a wardrobe.

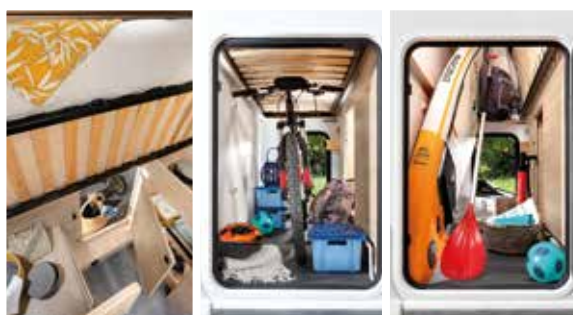

724

FOLD-DOWN

New fold-down bed to easily access storage units or increase the size of the garage.

(Model S514).

S514

T-SYSTEM

The T-System can be used to precisely adjust the height of the table electronically. It comes in very handy when you set up the fold-down bed. Thanks to the ingenious and understated Tulip table, the space is completely modular. A unique CHAUSSON innovation.

You'll find this in all the maxi-lounge low profiles

2025 COLLECTION

FOCUS ON MODELS

At CHAUSSON, we have chosen leading brands, with a chassis specifically designed for motorhomes and an after-sales network specially equipped and trained for the leisure market.

Ford and CHAUSSON have been in partnership for over 40 years. With over 7 million models sold worldwide, the legendary Ford Transit needs no introduction. This year it has a new look, all while continuing to offer the finest equipment and best value for money on the market, as standard.

NEW

WHAT'S CHANGED

- New 8-speed automatic gearbox*
- Improved brake and shock absorbers
- Tow weight reassessed
- New rims
- New logos
- New equipment as standard:
 - 12" SYNC system as standard
 - Driver assistance system: anti-collision alert system, automated lane keeping system
 - Automatic headlights and windscreen wipers
 - Automatic air conditioning
